Research papers

Doan Dinh Phuong, Van Duong Luong, Phan Ngoc Minh, Hyun Jun Park, Kyoung Il Moon

Microstructure, mechanical and tribological behavior of the TiAlVN coatings 266

Khanh Quoc Dang, Quang Anh Hoang, Hiep Van Tran, Minh Cong Nguyen, Hao Van Pham, Hai Minh Le

Densification and mechanical properties of FeMn13-TiC composite fabricated by pulsed electric current sintering process 273

Elhadj Ghelloudj, Mohamed Tahar Hannachi, Hamid Djebaili

Effect of time on the compound layer formed during salt bath nitriding of AISI 4140 steel 280

Jan Sas, Sandra Kauffmann-Weiss, Klaus-Peter Weiss

Effect of aging on mechanical properties of 316LN at 4.2 K for fusion applications 287

Mahyar Mohammadnezhad, Vahid Javaheri, Morteza Shamanian, Shahram Rizaneh, Jerzy A. Szpunar

Insight to the microstructure characterization of an HP austenitic heat resistant steel after long-term service exposure 296

Alexander V. Perig, Nikolai N. Golodenko

Alternative study of a bevel punch-assisted ECAE scheme 306

Majid Mirzaee, Changiz Dehghanian

Nanostructured Ni-Cu foam electrodeposited on a copper substrate applied as supercapacitor electrode 325

Romeo Sephyrin Fono – Tamo, Jen Tien – Chien

Effect of reinforcement particles preheating on mechanical and microstructural properties of AMC 337

Girolamo Costanza, Maria Elisa Tata

Lead and lead alloys foams production 347
